# CAPABILITY STATEMENT

**UEI:** CZ8BLZMSKZ66 | **CAGE:** 170W6 | **Founded:** 2025

**Business Type:** LLC • For-Profit • Small Business • Self-Identified Minority-Owned

## COMPANY OVERVIEW

Nova Titan Systems LLC is a self-identified minority-owned small business specializing in IT infrastructure, cybersecurity, cloud security, networking, ICS/OT field support, and telecommunications services. Registered in SAM.gov and verified in DSBS, we serve federal, state, and commercial clients across West Texas and nationwide. Our team delivers hands-on field engineering, break-fix support, structured cabling, security system installations, and CloudWarden IAM security audits. We operate as both prime contractor and subcontractor, with full insurance coverage and rapid deployment capabilities.

## CORE COMPETENCIES

### Cybersecurity & Cloud Security

- IAM security audits using CloudWarden platform
- Zero Trust architecture and MFA implementation
- Vulnerability scanning and remediation
- AWS cloud security configuration and support
- OT/ICS cybersecurity guidance and assessments

### IT Infrastructure & Networking

- Firewall, router, switch, and wireless network deployment
- Network installation, optimization, and troubleshooting
- Remote and on-site technical support
- Data center and IT infrastructure support
- Server and storage configuration

### Field Technical Services

- Security system installation (cameras, alarms, access control, sensors)
- POS systems, kiosks, payment terminals, and digital signage
- Structured cabling, rack builds, and fiber optic termination
- Multi-site field dispatch and deployment services
- Equipment staging and configuration
- **Telecommunications & ICS/OT Field Support** – Telecom infrastructure, industrial control systems, and operational technology environments

## Consulting & Managed Services

- System design and integration
- Cybersecurity and IT advisory services
- Project coordination and implementation support
- Technical documentation and compliance support

## DIFFERENTIATORS

- Multi-discipline capability set spanning IT infrastructure, cybersecurity, cloud security, and field engineering—reducing vendor fragmentation for federal buyers
- Proven commercial track record with national brands in retail, industrial, telecommunications, and enterprise IT environments
- Experienced across ICS/OT, SCADA-adjacent systems, telecom infrastructure, and traditional enterprise networks
- Fast response and deployment across West Texas with same-day service availability for federal facilities
- Owner-led operations with direct accountability—no project handoffs or subcontractor layers
- Credit card accepted for micro-purchases and simplified acquisitions under \$10,000
- SAM.gov active, DSBS verified, CAGE assigned, HUB certification in progress—ready for prime and subcontracting work
- Flexible engagement model supporting BOAs, IDIQs, task orders, micro-purchases, and emergency response requirements

## REPRESENTATIVE PROJECTS

- **7 Brew Coffee** – Network infrastructure upgrades and on-site field services across multiple locations
- **Granite Telecommunications** – Network remediation and technical support services
- **NCR / Lexmark** – Printer maintenance, POS system support, and peripheral device troubleshooting
- **Office Depot / Walmart** – Field deployment services and equipment installations
- **Tagmarshal** – Golf course technology kiosk hardware installation and configuration
- **Banks & Schools (West Texas)** – Structured cabling, network equipment setup, and infrastructure support
- **CloudWarden IAM** – Security audit services for small business clients
- **WorkMarket / Field Nation** – Diverse IT and field service projects nationwide

- Documentation
- Training services
- Maintenance support
- Upgrade services
- Migration support

## CORE COMPETENCY SUMMARY

Nova Titan Systems LLC delivers comprehensive IT infrastructure, cybersecurity, and field technical services through a unified service model that spans traditional networking, modern cloud security, and hands-on field deployments. Our team provides end-to-end support from initial system design and security assessments through installation, configuration, and ongoing maintenance across commercial and government environments. We specialize in rapid deployment of security systems, structured cabling, network infrastructure, and point-of-sale technology while maintaining strong capabilities in IAM audits, vulnerability management, and industrial control system security guidance.
